Publications during enrolment

You may wish to list your publications arising from your research degree enrolment using the standard citation format of your academic unit. Remove this section if you do not have publications.

Thesis including published works declaration

This declaration is to be included in a 'thesis including published works'. You must provide details of all publications included in your thesis in the section below. If you have not completed a thesis including published works, please remove this section and include a standard thesis declaration.

Please ensure your thesis meets the thesis including published works requirements. Some faculties vary requirements in terms of the number of papers required, status of papers and other criteria.

- *Art, Design and Architecture*
- *Arts*
- *Business and Economics*
- *Education*
- *Engineering*
- *Monash Sustainability Institute*
- *Science*

I hereby declare that this thesis contains no material which has been accepted for the award of any other degree or diploma at any university or equivalent institution and that, to the best of my knowledge and belief, this thesis contains no material previously published or written by another person, except where due reference is made in the text of the thesis.

This thesis includes (*insert number*) original papers published in peer reviewed journals and (*insert number*) submitted publications. The core theme of the thesis is (*insert theme*). The ideas, development and writing up of all the papers in the thesis were the principal responsibility of myself, the student, working within the (*insert name of academic unit*) under the supervision of (*insert name of supervisor*).

(The inclusion of co-authors reflects the fact that the work came from active collaboration between researchers and acknowledges input into team-based research.) *Remove this paragraph for theses with sole-authored work*

In the case of (*insert chapter numbers*) my contribution to the work involved the following:

(*If this is a laboratory-based discipline, a paragraph outlining the assistance given during the experiments, the nature of the experiments and an attribution to the contributors could follow.*)

Thesis Chapter	Publication Title	Status published, in press, accepted or returned for revision, submitted	Nature and % of student contribution	Co-author name(s) Nature and % of Co-author's contribution*	Co-author(s), Monash student Y/N*
e.g. 2	*Waveforms in systemic arteries*	*Accepted*	*60%. Concept and collecting data and writing first draft*	*1) Albert Einstein, input into manuscript 25%* *2) Marie Curie, Data analysis, input into manuscript 15%*	*Yes No*

*If no co-authors, leave fields blank

I have / have not renumbered sections of submitted or published papers in order to generate a consistent presentation within the thesis.

In accordance with Chapter 7.1.4 of the research degrees handbook, if you have engaged the services of a professional editor, you must provide their name and a brief description of the service rendered. If the professional editor's current or former area of academic specialisation is similar your own, this too should be stated as it may suggest to examiners that the editor's advice to the student has extended beyond guidance on English expression to affect the substance and structure of the thesis.

Free text section for you to record your acknowledgment and gratitude for the more general academic input and support such as financial support from grants and scholarships and the non-academic support you have received during the course of your enrolment. If you are a recipient of the "Australian Government Research Training Program Scholarship", you are required to include the following statement:

"This research was supported by an Australian Government Research Training Program (RTP) Scholarship."

You may also wish to acknowledge significant and substantial contribution made by others to the research, work and writing represented and/or reported in the thesis. These could include significant contributions to: the conception and design of the project; non-routine technical work; analysis and interpretation of research data; drafting significant parts of the work or critically revising it so as to contribute to the interpretation.
